Keep a step ahead

Powerful and clever features that will increase productivity to keep you ahead of the game.

Print Fast. Don't wait

However demanding your professional printing needs, the DocuPrint CP315 dw / CM315 z delivers great results – fast. Save time by printing even complex documents at speeds of up to 28 pages per minute helping you to work faster, be more flexible and more productive.

Save time with customisable 4.3" touch panel

Simplify your work processes with the innovative 4.3" colour touch screen display on the DocuPrint CM315 z.

It features bright, colourful icons and intuitive 'click-drag' navigation for optimal ease-of-use. Organise your most commonly used functions so they are easy to access.

Make your daily work processes a breeze by creating your own custom 'app', which allows you to convert complex processes into a simplified command you can access with a click of a button, giving you quick access to frequently used and complex functions.

The built-in USB port makes walk-up functionality simple, allowing you to print and scan to and from a USB memory stick without the need of a PC.
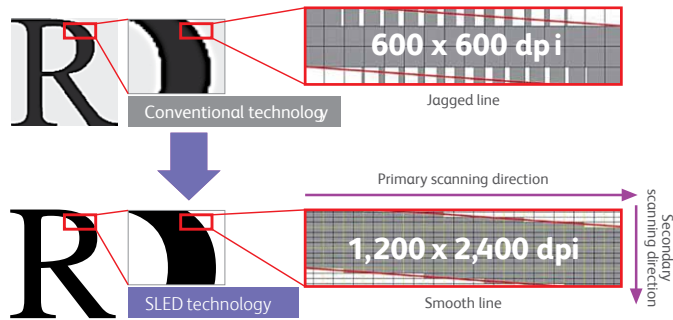

Make an impression

Class-leading technology delivers amazing print quality in a stylish compact design.

New CCSLED Technology with IReCT

Newly developed CCSLED (Current Confinement Self-Scanning Light Emitting Device) & STYLS (Set-Type ThYristor Logic SLED) technology allows high-resolution output at 1200 x 2400 dpi quality, whilst achieving compactness and power-saving benefits.

SLED technology

Smooth line

IReCT (Image Registration Control Technology) ensures each printed colour is corrected by digitally processed 2400 dpi high-resolution data, ensuring improved registration accuracy and ultra-precision image reproduction.

Colour misregistration sensor

Gradation control in secondary scanning direction enables smoother reproduction of black lines and character outlines. This feature is especially effective on the lines in low angles. The result is smoother, sharper image reproduction.

Lower running costs and emissions

Clever technology helping to reduce running costs and it's footprint on the environment

High yield, lower costs

High-yield toner cartridges allow longer periods of uninterrupted productivity, reducing your total cost of operation.
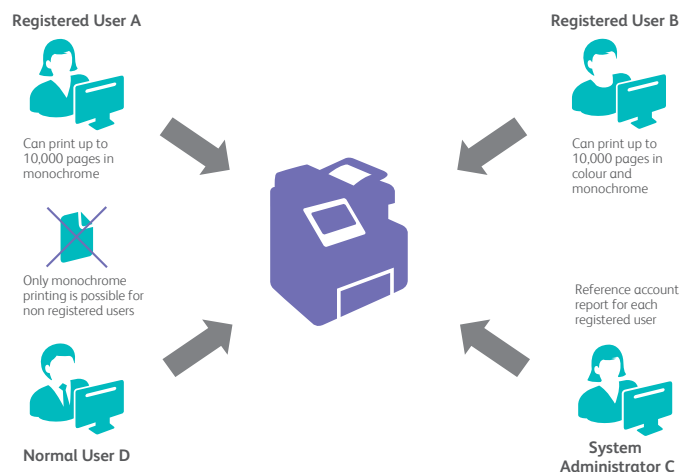

Save with Super EA-ECO Toner

The newly developed Super EA-Eco Toner applies a new polyester resin that dramatically effects the viscosity of the toner with changes in temperature. This enables Super EA-Eco Toner to achieve 10-15°C lower fusing temperature than standard toner, reducing power consumption by up to 20%, and reducing CO_2 emissions by up to 35%. That means bigger savings for you and a greener planet for us all.

Manage your print costs

Control and manage colour usage with Auditron

With Auditron, you can define user usage limits for colour printing. This makes it easier to track, analyse and manage print expenses.

Secure printing made easy

Powerful security features makes the DocuPrint CP315 dw / CM315 z perfect additions to any multi-user environment

Secure communication

For users in today's business environment, security is paramount. The DocuPrint CP315 dw / CM315 z is equipped with advanced technology designed to safeguard your business critical data against potential attack from multiple points of access.

Built-in security features such as IPV6, IPsec, Secure HTTPs (SSL) and SNMPV3 delivers required security to keep your confidential data safe.

Confidential printing

Advanced security features, such as Secure Print, allows you to set a password on your print job which means that the data is encrypted for transmission and is hidden from prying eyes by only printing when a password is entered on the control panel. Perfect for workgroup environments, this means that your confidential documents won't end up in the wrong hands.

Real document security is easy with SecurePrint

| Print your document using the Secure Print option and define a password | → | Select the document from the Secure Print menu | → | Enter your password to print your document | → | The document is released from the Secure Print queue | → | Your document is printed securely |
